CROFT RAPID DECOY DEPLOYMENT SYSTEM

INTRODUCING THE CROFT RAPID DECOY DEPLOYMENT SYSTEM - RDD3

When the team at the Outdoor Channel's *Heartland Waterfowl* show began designing a faster way to place their waterfowl decoys, they turned to Croft Trailer Supply. Working together, a rugged and durable new storage system for decoys was developed. This new system is adaptable to any type of decoy spread and can be customized to fit any size enclosed trailer.

BREAK IT DOWN

RAPID DEPLOYMENT

A simple pull of a handle releases the foam-padded, steel dividing rods, which can be removed separately as you set decoys in the field. To prevent rods from slipping out of place, each piece of steel tubing comes with a locking pin for added security when in transit.
